The drama in Ashton's former celebrity love life just intensified! What are some signs that your partner isn't being faithful?

Cupid's Advice:

One of the worst things that can happen to you when you're in a relationship and love is if your partner isn't being faithful to you. The feelings of sadness and betrayal are hard to bare. Sometimes these situations do arise, so it's good to look for the signs. Cupid has some tips:

1. Distant: When your partner starts to grow distant, that is potential sign that he or she is growing closer to someone else. Try and spend quality time together and focus on communicating. Plan a date night! Rekindle the spark and romance in your relationship.

2. Defensive: If your partner begins to guard their cellphone and put password protection on it, then they very well may be hiding something. If they always had a passcode on their phone, then don't worry – but if they are becoming extra protective of their phone, then start being aware. If they are defensive when you ask questions, they may be lying to you. The important thing is to find out what is going on and

addressing it!

3. Negative: Relationships and love go through good times and bad times. It's not always a honeymoon phase in a healthy relationship, so you can't expect your partner to be happy and positive 24/7. That being said, they should not be negative and rude to you constantly. If this is becoming a pattern and they are insulting you, something is definitely going on in their lives and you should figure out what it is. They may just be going through some issues. Be supportive and find out what is happening!
