for love! What are some ways to take risks for a relationship?

Cupid's Advice:

Sometimes, we get comfort out of our day-to-day relationship routine. However, in order to keep things fresh, it's important to take relationship risks. Below are a few pieces of relationship advice regarding ways you can take your relationship to the next level by taking risks:

1. Disagree with their opinion: Obviously, you don't want to disagree with everything your partner has to say. But, if you don't have the same view as they do on a big topic like politics, speak up. Nobody wants a partner that says "yes" all the time.

2. Do you own thing: When you're in a relationship, it may be hard to pull away from the other person and spend time on your own. However, make sure that you do make time for yourself outside of the relationship. This can help you strengthen your independence, and if you're not spending every waking hour with your partner, you'll have time to miss them.

3. Bring forward relationship issues: A lot of people think it's best to keep quiet and "pick and choose their battles" when it comes to relationship arguments. However, it's best to say something if there's a specific issue that you've been having with your partner for a long time. If you keep quiet, you'll eventually resent the other person.
