Cupid's Advice:

Having a baby can be one of the most exciting and rewarding parts of life for both famous couples and everyday couples. But some individuals may find it difficult to prioritize having a child, especially with careers and other responsibilities. Here are some of Cupid's tips for how you and your partner can prioritize having children:

1. Have a talk with your partner: Before deciding that you're ready to have a baby, sit down with your partner and make sure that he or she is on the same page. Don't blindside your significant other before you know what they want. Discuss important issues such as finances, where you want to live, vaccinations, etc.

2. Save money: Instead of splurging on items you may not need, stick to buying (mostly) the essentials and put some money away for your child's future. Saving money, even way before you and your significant other have children, will pay off in the long run. It will also significantly lessen stress levels if you don't have to worry about money for your child's needs.

3. Mind your health: Before having a child, make sure that your health is in top shape. Visit the doctor before having a

child to ensure that your body is ready for children. Also, have a discussion with your doctor about what steps you can take to improve your health to make your pregnancy as smooth as possible.
