Whether you're just dating, in a [relationship and love](#), or single, it never hurts to get some extra dating and relationship advice; especially when it comes to important things like kissing.

Below are some special pieces of dating advice and kissing pointers.

Cupid's Advice:

1. Have fresh breath: It seems like common sense, but a lot of people are guilty of bad breath. Make sure your teeth are clean. It doesn't matter how good of a kisser you are, as bad breath can ruin everything.

2. Build up the moment: No matter if it's the first date, or if you've been dating for awhile; there's going to be some tension. And, kissing is a great way to break the tension. Don't wait too long for that first kiss, however. You want to make sure they still understand that you're interested in them.

3. Use your eyes: Obviously, don't keep them open while you're kissing. But, try speaking with your eyes to initiate the kiss.

4. Don't try to control it: A good kiss is powerful. The moment will be broken if you put too much thought into it.

5. Relax: Kissing isn't a "win or lose" situation. Try to gauge what the other person is doing, and go from there.

6. Be spontaneous: Give your partner a gift when they least expect it. Catching them off guard with a kiss can be just what they needed.

7. Pay attention to the surroundings: Special and new surroundings can make things interesting. Because your eyes are closed, you'll be able to see and feel new sensations more clearly.

8. Control your saliva: Don't create slobber that runs down

your face. Keep your saliva in check.

9. Use your hands: Don't just fixate on someone's face. Touching their neck, sides, or holding them close makes the kiss better.

10. Don't drink: The best kisses and makeout sessions occur when you're sober.
