Cupid's Advice:

Sometimes being vulnerable isn't always a good thing, and timing is super important. Cupid has some tips for protecting your heart:

1. Use caution: No matter the situation in life, it's best to always use caution and your best judgment. Don't be too guarded, but make sure that you are not being blinded, naïve or unrealistic. When dating, be cautious of people's true motives and intentions. That being said, make sure to give everyone a chance!

2. Listen to your heart: The most important thing you can do when dating is to listen to your heart. If you always follow your heart, you will achieve your ultimate happiness. If someone is striking you as someone you want to date, then go for it. Your feelings won't lie. Do what makes you happy!

3. Go with your gut: When you are getting back into the dating game, it can be tough. Make sure that you always listen to your gut and trust your instincts. If you don't see yourself getting serious with a person, cut ties with them sooner

rather than later. If you question what their motives are or you don't like their behavior, don't ignore it. If you always listen to your gut instincts, then you will be better off!
