

Fitness Advice: How to Use Resistance Bands

By

[Jessica Gomez](#)

Resistance bands are a great workout tool that help you get a killer workout in by using your own body weight. They're elastic stretch bands, and if you don't have weights at home, resistance bands are a good alternative. There are benefits to using them as well, aside from working out your full body. They include maintaining stability throughout your movements and using multiple muscles at once. Also, they're inexpensive, easy to carry around, and easy to store.

Here's a [workout tip](#): Incorporate

resistance bands into your workout or use them solely for specific exercises. Try the following exercises to get that celebrity workout type of routine in:

Resistance bands can help you workout any part of your body from your legs and arms to your back and booty. Start your light strength training to help you get that celebrity body you want this summer. Here are five workouts to try with them:

1. [Ankle jumping jacks](#): Simply place the band around both ankles and stand in quarter squat position. Once you're in position, jump and bring your feet out and in – that's one rep. You can do 20 of these or more. This is a good butt exercise. Also, remember not to jump too high, and land straight on your feet, not toes.

2. [Standing glute kickback](#): This is another butt workout to get your booty looking great this summer. Again, simply place your band around your ankles. Next, shift your weight onto your one of your legs and move your other leg backwards and up a little, like a donkey kick, but not as high. Continue doing this motion for 20 reps or more and then switch to the other leg. You can rest your hands on your chest or hips.

3. [Bicep and tricep workout](#): Hold each side of the band, each in one hand. Place the other part on the floor and step on the middle with both feet. To workout your bicep, pull up with each hand toward your chest. For triceps, bend over with your back straight, looking at your feet. Then push your arms down and backwards. Now get ready for sculpted arms this season.

4. **Leg press:** Extend the band around your back and around the outside of your shoulders. Next, lay down with your back on the ground and your legs at a 90 degree angle (knees pointing at you), then put the rest of the band under your feet. When finally in position, push your legs back and forth (knees toward your chest and then outward, back and forth). Do 20 reps or more. This will work on your quads.

5. **Kneeling back row:** This exercise will target your outer back. Secure the band around a door or pole first. Then plop down on your knees and pull the band back with your arms until they're by your chest, squeezing your shoulder blades as you do it. Return to starting position while controlling the resistance, and repeat. You can 20 reps or more.

Fitness Tips: How to Stretch In the Morning

By

[Haley Lerner](#)

Waking up in the morning can be tough, especially if it's early! A great way to increase your energy levels is to start your day by stretching. Stretching is proven to prevent injury and relieve pain by increasing your range of motion, taking pressure off of your joints, and preparing you to exercise so you can get that [celebrity body](#) you've been dreaming of. It also improves circulation to your muscles, helping your body recover faster. Plus, it helps to relieve stress so you can unwind and calmly start your day. But, while stretching in the morning, you want to make sure you're doing it right! We've got some [fitness secrets](#) to help you stretch properly in the morning.

Check out these fitness tips to help you stretch the right way!

1. Warm up: Before you start stretching, it's important your body is ready for the task. If you stretch right when you wake up, you have an increased risk of getting injured. This is because while you're asleep, your spine swells with fluid, so it's vital to warm up first to prevent muscle strain. Try

doing jumping jacks or walking around your home for 10 minutes to get your body ready to stretch.

2. Form a routine: If you want to make stretching a part of your daily schedule, putting together a routine will make the practice easier to manage. Find what muscles in your body feel tight and target those areas. Creating a routine means doing the same stretches daily, therefore increasing your flexibility in those focus areas.

3. Don't hold your breath: When stretching, it's important you aren't holding your breath, as this will result in your muscles tensing. Instead, try to relax and focus on exhaling longer than you inhale. The breathing itself will help calm you, and it's sometimes helpful to practice deeper breathing by meditating as well.

4. Make sure you're not in pain: While a subtle pulling sensation can be good and show that you are properly stretching your muscles, you want to make sure you don't feel any sharp pain. If you feel a significant amount of pain, it's important to stop what you're doing. You definitely don't want to injure or irritate a problem area.

5. Cool down: After stretching, it's important to give your body a rest. Drink some water to replenish your body and focus on stabilizing your breathing. You'll feel much looser, which is the goal, but wait a few minutes before plunging into your workout routine.

Fitness Tips: Meditate And Practice Breathing

By

[Jessica Gomez](#)

Meditation is a technique where deep breathing is used to clear your mind and relax you. It's something that we can all benefit from. People who believe in meditation usually meditate anywhere from five to 30 minutes a day. If you're just starting out, you can begin with five minutes and gradually increase the time. There are many different types of meditation and ways to go about it, so it's important to do research before you start practicing.

Meditating is a great [fitness tip](#) due to the positive effects it has on the mind and body. Here are several healthy benefits:

Meditation consists of regular deep breathing and specific breathing practices. This is what contributes to the following beneficial effects:

1. Reduces stress: When our bodies experience stress or threat, they respond with a “fight or flight” response. The adrenaline rush we endure increases blood pressure and pulse rate, and produces faster breathing and increased blood flow to the muscles. When we meditate, it produces a relaxation response, which is the exact opposite from the “fight or flight” response – a state of deep relaxation where our breathing, pulse rate, blood pressure and metabolism are decreased.

2. Promotes emotional health: A study in the journal *Perspectives on Psychological Science* noted that there are several benefits of mindfulness on symptoms of anxiety and depression and its ability to improve sleep patterns. It points out, “Compared with novices, expert meditators’ brain activity diminished in anxiety-related regions – the insular cortex and the amygdala – in the period preceding the painful stimulus.”

Related Link: [Fitness Secrets: 5 Simple Tips to Stay Healthy](#)

3. Slows aging: A small and growing body of evidence suggests that regular meditation can indeed slow aging, at least at a cellular level, according to an article in *The Guardian*. A study published last month found that long-term meditators had a reduced inflammatory and stress response to psychological

and chemical stressors in the lab compared with a control group. This would seem to mean that if we counter the effects of stress with meditation, we can indirectly slow cellular aging.

4. Can decrease blood pressure: Meditation techniques appear to produce small yet meaningful reductions in blood pressure either as monotherapy or in conjunction with traditional pharmacotherapy. Transcendental meditation and mindfulness-based stress reduction may produce clinically significant reductions in systolic and diastolic blood pressure. What a great natural way to achieve what most use medicines to treat!

5. Good for your immune system: Since your immune system responds to both negative and positive thoughts, meditation creates a positive mental environment for the immune system to flourish. A study from ScienceDirect showed a reduction of pro-inflammatory gene expression in older adults.

Celebrity Fitness Secrets: Ways to Work-In An Early Morning Workout

By

[Jessica Gomez](#)

We all wish to be fit, but for many of us there is always something getting in the way somehow. Whether it be our lack of motivation or lack of time – where there is a will, there is a way! Getting an early morning workout in should be a goal we all put on our list. There are many benefits to working out in the morning. “But I just don’t have the time!” many of us say. Well, enough is enough– it’s time to learn the celebrity fitness secrets that can help you put your game face on in the morning. Follow this piece of workout advice: you don’t have to work out for two hours; you can work out for a short time each morning, but the key is to do a mix of workouts quickly.

It's time to achieve that celebrity body, so here are a few celebrity fitness tips to ensure that you start working on yourself first thing in the morning by doing what Hollywood trainers advise:

To get a butt like [Jennifer Lopez](#): J. Lo gives 500% when working out, according to her trainer David Kirsch. And that's what we have to do – give it our absolute all. In addition, Lopez combines cardio with strength training to tone that booty and those thighs. A couple of workouts that are easy to include in your morning routine are squats and donkey kicks, which will tone your butt and can even build it overtime! Create a personalized mini morning routine with sets and circuits, adjusting it daily or every other day. Ideally, you can start with five sets of 10, totaling in 50 squats and 50 donkey kicks per leg.

To get arms like Cameron Diaz: Like Jennifer Lopez, Diaz is highly dedicated to a fit lifestyle and also does strength training with cardio. Moves to tone up your arms that you should add to your morning workout are plank push-ups, triceps dips, and bicep curls. Get on the treadmill also to help burn off fat. Create a personalized mini morning routine with sets and circuits for this as well, adjusting it daily or every other day to gradually increase.

To get abs like [Gwyneth Paltrow](#): Building great abs is more about overall body training than just spot training. You can definitely include workouts like crunches, curl ups, and sit ups to your routine however. But do not exclude Paltrow's

workout tip from her trainer Tracy Anderson: [Goop, an ab workout circuit](#). Let the sweating begin, and let's expose those abs we have hidden!

To get legs and thighs like [Beyonce](#): Obviously dancing plays a part in her great bod, so let's dance to tone and shake the pounds off. In addition, you can add jumping lunges and pelvic lifts to your morning workout like Queen B does to tone those thighs. Doing a few sets of 10 in the morning, gradually increasing the set number or doing more than 10, will help.

To get an overall toned physique like Shakira: It seems like the key to everything is cardio and strength training intervals, because guess what, yes – Shakira does it too, according to her trainer Anna Kaiser. Simple exercises you can add to your morning routine are jumping jacks, jogging/running, and lifting some weights (no, they won't get you muscular like a body builder).

Fitness Tips: How to Keep the Beer From St. Patrick's Day Off Your Hips

By

[Rachel Sparks](#)

St. Patrick's Day is upon us and we need to prepare our

bodies. Let's be honest, the Irish have a stereotype for a love of drinking and St. Patrick's Day is no exception. If we're being honest with ourselves, we're going to join in on the fun. So soon after the New Year and our resolutions dangling over our heads, the biggest question is how we can have fun without failing our fitness goals? Cupid's [fitness tips](#) are our secret to you.

Cupid's fitness tips will help keep all your St. Patrick's Day fun from sticking to your hips!

1. Eliminate carbs: This is a given. If you know you're about to be ingesting a lot of green beer, and the pretzels that come along with them, just make sure that you've balanced your intake. Cut back the days before and days after. Generally speaking, you don't want too many carbs anyway, but a little moderation will help balance that green beer you're going to have.

Related Link: [Fitness Tips: Staying Healthy During the Holidays](#)

2. Limit portions: Like any dietary recommendation, rationing portions helps. Smaller meals more often is a much better alternative for your body than a few large meals. Don't starve your body; the extra calories from holiday celebrations will send a message to your starving body to store them while they can.

3. Watch caffeine: Caffeine is a jittery high compared to the sleepy lows of alcohol. Be careful to not get stuck in a cycle of highs and lows that make up drinking and too much caffeine. In addition to the energy chaos, both alcohol and caffeine are diacritics. Sounds delicious? Yeah. Both will upset your stomach and mess with your sleep. Monitor caffeine or find

kinder alternatives than coffee, such as tea or mate.

4. Work out routine: If you've been sticking with your resolutions we imagine that you already have a great work out routine. Make sure you stick with it before and after St. Patrick's day. It's much easier to maintain than it is to recover, so don't stress about working out more in order to lose the extra beer weight, just tick with your normal routine to avoid packing it on.

5. HIIT: This is extreme. If you're ready for intense workouts with burn and fast results, this is it. High intensity interval training is a celebrity fitness trend that really works. Queen Latifa, [David Beckham](#), and [Carrie Underwood](#) are proud of their hot bods thanks to HIIT, so as a great fall back to get your butt in gear, HIIT will be saving your hips from St. Patrick's day.

Fitness Secrets: Slim Down in Time for Valentine's Day Date Night

By

[Rachel Sparks](#)

Valentine's Day is almost here, and we know you want to look your hottest for the perfect [date night](#)! Your New Year's resolutions may have included a workout plan (and you may have even stuck with it), but all those holiday treats are still sticking to your hips. Here are Cupid's [fitness tips](#) to get you in sexy shape for your dream Valentine's Day date night:

Cupid's fitness tips will help make your Valentine's Day date night the sexiest!

1. Juice detox: If you're trying to make a change really quick, a detox is the way to start. You can lose weight on a detox, but you want to use this as a starting point and not the only technique for losing weight. You need to clean your body of all that junk leftover from the holidays in order to feel better, eat healthier, and kick-start a work-out routine.

Related Link: [Look Like a Victoria's Secret Model with These Celebrity Workouts](#)

2. Stay hydrated: And we mean all the time. Drinking enough water will give you more energy, replace water you lost during a work-out, keep you feeling full so you don't overindulge at meal time, and it keeps your skin taut and glowing. So really, there's no reason to not drink water.

3. Cut unnecessary calories: Drinking, white bread, and junk food are some of the biggest culprits of wasted food. Our bodies need calories to function, and especially while working out, but make sure you're ingesting the right kind of calories. Fruits are high in the good kind of carbs to give you a burst of energy. Proteins like chicken or fish are light and easy to digest while still giving you the heavy feeling of having eaten. If sticking to a diet for too long seems daunting, just remind yourself you're doing this for Valentine's Day. A month is easy, right? Well [according to Idealfit](#) you can get lean in as short as 15 days.

Related Link: [Fitness Tips: 5 Fit Celebrities That Lost Weight and How They Did It](#)

4. Don't starve yourself: You think weight loss and you think cutting back on eating, but that's retroactive to your goals. Starving yourself triggers your body into survival mode, which means it will actually run slower and store even *more* calories. When you don't enough, you're telling your body food isn't common. Eat regularly, have healthy snacks often, and you'll actually lose more weight from eating more often.

5. HIIT workout: This is one of the latest fitness trends. HIIT stands for high-intensity interval training. Basically, you give everything you can for a short amount of time, rest, and come back. You're pushing your body to the max. It's a lot like heavy-lifting training; you're doing high intensity for shorter reps to gain muscle and burn more fat. This is definitely a hard workout, but it's a quick ticket to that sexy bod.

Related Link: [Celebrity Workout: How to Drastically Lose Weight Like Jonah Hill](#)

6. Find fun workouts: Ok, so working out usually sucks. Weight training and timed miles remind us of gym class in high school, and no one wants to go back there. Take cues from [Kate Hudson](#) and other celebrity workout plans and find something fun. Whether you follow Kate Hudson's passions for pole dance or you've fallen in love with Zumba, anything that gets you to jump off the couch and burn those calories is a win.

Fitness Tips: Stick to Your New Year's Resolutions

By

[Rachel Sparks](#)

All of us have our body quirks with our bodies – things we don't like about ourselves. While it's important to accept who you are as you are, we also recognize that investing in yourself helps self-esteem. If exercise is a priority, you'll reap so many rewards beyond how your body looks. Cupid knows how hard it is to keep up a strong exercise routine, and we're here to help. Here are our [fitness tips](#) to keep your routine rocking!

Read on for Cupid's fitness tips to achieve those New Year's resolutions!

1. There's an app for that: There's an app for anything, so look out for any of your specific needs! There's apps for fitness that give you a sense of community right on your phone. You can track calories, workouts, miles walked, etc. with other apps. Some apps help you meal plan, interpret labels, and compile shopping lists. There's an app for any need you have to keep you motivated and on track for your

resolutions.

Related Link: [Fitness Tips: The 5 Best Apps to Help You Stay on Track](#)

2. Classes: Let's be honest; working out a gym sucks for most people. As much as we want to workout, if we're pulling on a machine all day it's hard to stay motivated. Fitness classes have become so much more fun. To stay on top of your resolutions, find a class that interests you! There's aerial fitness, dance classes, yoga, crossfit, bootcamps...you name it, it's out there.

3. Friends = accountability: Who is holding you to your goal? Is anyone motivating you, asking about your progress, celebrating your wins? Self-discipline only goes so far. On the days when you're feeling unmotivated, having a partner who is responsible for kicking your butt in gear is necessary. Prevent any breakdowns by assigning a friend to be your accountability partner. If you can rope your love into a workout, not only is it more accountability, but there's tons of couples workouts to rock to like Elsa Pataky and Chris Hemsworth for an energizing [date night](#).

4. S.M.A.R.T. goals: Have you heard of these from school or work? As annoying as these goals seemed at the time, it's a practical approach to personal goals as well. S.M.A.R.T. means "specific, measurable, achievable, realistic, timely" goals. Is what you're asking of yourself something you can track your progress and achieve in a reasonable amount of time? If not, break down a bigger goal into smaller steps so you can feel great about progress and keep building to that bigger dream.

5. Recognize aches and pains: How does this help you achieve your goals? When you overdo it, your body will react negatively. You may seriously injure yourself. Learn how to be

aware of your body and recognize when it needs a break. It's better to rest for a day than to lose your goal completely from an injury. Remember, your goal is to better yourself; it's a lifelong process. You don't have to push yourself to achieve an Olympian's body in a few months. Commit for a lifetime. Commit to yourself.

Fitness Tips: 6 Ways to Avoid Putting on Extra Holiday Pounds

By

[Karley Kemble](#)

The holidays are a wonderful time of year filled with lots of reasons to celebrate. With so many parties and gatherings, it's easy to break away from healthy habits, and even easier to add numbers to your scale. While holiday weight gain is usually inevitable, you can put up a good fight. How cool would it be to say you actually *lost* weight after the New Year hits?

If you're worried about gaining weight during the holidays, check out these [fitness tips](#) that'll help prevent the scale from climbing. After all, Cupid doesn't believe in keeping fitness secrets.

1. Workout in the mornings: In most cases, parties are held in the afternoons or evenings, so if you're heading to an evening shindig fit in some exercise in the morning. Starting your day off with fitness really sets the whole tone for your day and

will make you more conscious of the foods you put in your mouth. You also are less likely to feel guilty about treating yourself to grandma's homemade gingerbread cookies!

2. Walk after dinner: It doesn't seem likely that you'll leave early from a holiday party and head straight to the gym. There is some good news – you can still get those Fitbit steps in. Start a new family tradition and go on a good walk around the neighborhood. While it may not be the most intense cardio workout, it still counts for something. Plus, you can bond over all the houses decorated for the holidays!

Related Link: [Dating Advice: How to Avoid Holiday Weight Gain!](#)

3. Take advantage of commercial breaks: If you find yourself glued to the T.V. for all the holiday specials and every new Hallmark Christmas movie, the couch potato life can really take a toll on your weight. Utilize the 15+ minutes of repetitive ads, and turn your living room into a mini home gym. You can do a ton of exercises – crunches, pushups, jumping jacks – the list is really endless! Find what works for you and go for it. By the end of the movie or show, you'll have a decent workout in.

4. Snack beforehand: Never go to a party hungry! When the "hanger" kicks in, it's almost impossible to control yourself. Make sure you eat a little something beforehand, so you don't become ravenous. You'll be more mindful of what's going into your mouth and will significantly reduce the chances of a regrettable binge eating episode.

Related Link: [Dating Advice: Don't Be Afraid to Sparkle During the Holidays–Even If You Are Single](#)

5. Bring a healthy dish: While there is a bit of uncertainty with the menu at a party you're invited to, your host/hostess will definitely appreciate some extra help. No matter what you're asked to bring, there is always opportunity to put a healthy spin on a dish. That way, you know at least one thing

is a good choice. Don't be worried about people skipping over your dish because of your modified recipe, most people can't even taste a difference.

6. Plan, plan, plan: What's great about the holidays is that you can prepare your action plan beforehand. The big holidays fall around the same time every year, so you know what to expect. Eat healthily in the days leading up to a holiday party, and fit in workouts around your busy schedule. Establish as much consistency as you can – breaking the routine is what causes you to stray and will cause weight gain.

Fitness Tips: 5 Couple Exercises That Are Worth the Sweat

By

[Rachel Sparks](#)

Now that the holidays are over, we're no doubt regretting some of those holiday treats we consumed. The cold keeps us in, the sweets come out, and we're juggling between moments of extreme stress and joy with friends and family so our eating habits are erratic at best. Right after that came the new year with the promises we made to lose the weight we gained over the past couple of months. Let's break that cycle *now* by taking a cue from [celebrity couples](#) like [Jennifer Lopez](#) and Alex Rodriguez and start working out with our S.O's.

The hottest fitness tips start with you and your partner breaking a sweat together.

Working out makes us feel great about ourselves, but make it even better by doing it with your partner. Celebrity couples who work out together boast of strong bonds with their partner. There's nothing but good reasons to exercise with your partner, so grab them up off the couch and get going!

1. Hiking: We're starting easy and free (usually). If you or

your partner are new to the exercising world, hiking is a great way to cheat the mind into thinking you're not working out. You can control your path, mileage, and speed so it's a great way to get into shape with a motivating view.

2. Kayaking: Another way to trick those who hate traditional exercise into getting active involves another outdoor sport—kayaking. Most rental kayaks offer an option to share a two-butt kayak. It's a great workout for the arms and it challenges your communication and teamwork.

3. Rock Climbing: Let's keep it safe and stick with indoor rock climbing gyms until that confidence and strength has built up. The latest celebrity trend involves rock climbing gyms, but beware that there's a fair amount of trust involved. Your partner usually holds onto the rope that keeps you secure as you climb. When your arms start shaking, there's no better feeling than your S.O. cheering you on.

4. Kick Boxing: Don't do this when you're mad at your S.O. Or at least, don't miss the bag as you throw your anger-fueled upper cut and knock your partner in the teeth. It's a great way to relieve stress and learn self-defense in addition. Take turns on the offense and defense and offer each other constructive criticism. Hot celebrity couple Chris Hemsworth and Elsa Pataky are known to practice kick boxing together.

5. Yoga: Yogi's make intense positions look effortless, but be warned: there is a fair amount of knowledge and practice that goes into this sport. Couples who practice together help strength fine-tune muscles and flexibility. Bonus: you can do some really cool arial tricks together. [Adam Levine](#) and his

wife Behati Prinsloo have been pictured holding plank together. And yes, holding your favorite position is an integral part of yoga.

Fitness Tips: 5 Most Effective At-Home Workouts

By

[Melissa Lee](#)

When you're trying to maintain a healthy lifestyle, getting to the gym all the time can get a little tough. If you have a busy day-to-day schedule, sometimes doing your workouts at home may be the way to go. Don't worry about getting a decent workout in, though – check out a few of these at-home exercises to ensure you keep your healthy habits going.

Head below to check out some fitness tips: most effective at-home workouts to do when you're too busy to get to the gym!

1. Dumbbell squats: This exercise is perfect if you're trying to workout your legs and butt. It's essentially a regular squat, but you're also using dumbbells to increase the weight being applied. This is super beneficial and intensifies the workout. Do as many reps as you can in one minute, then repeat.

2. Pushups: Although they're everyone's least favorite workout

(upper body exercises are definitely a pain), pushups are extremely beneficial. Pushups are fantastic for your upper body strength (arms, chest), plus they work your core. Make sure you're doing the right form to prevent getting injured!

3. Sprint in place: So you don't have time for the gym or to go out on a run – no problem! Try sprinting in place for 20 seconds, then repeat three more times. Running is a great exercise to get in the habit of, and it's even better to start or end your workout with. It can be painful when you first get started, but eventually you will start to get better, making a notable improvement.

4. Squat thrusts: This workout isn't the most well known, but we can walk you through it. Start by lowering into a squat and placing your hands under your shoulders, then jump down into a full plank position. Make sure you're keeping your abs tight to get the most out of this workout as well. Do as many reps as you can for 20 seconds, then repeat three more times.

Fitness Tips: Staying Healthy During the Holidays

By

[Melissa Lee](#)

The holiday season is all about family gatherings, giving (and receiving) gifts, and *food*! Regardless of what you celebrate during the holidays, there is bound to be a ton of delicious food that seems almost impossible to resist. If you find yourself having a difficult time staying healthy during the winter season, don't stress too much. We've got you covered with a few ways to look (and feel) your best!

Check out these fitness tips on how to stay healthy this holiday season!

1. Stay hydrated: this is just a general, every day fitness tip, but water is super important. This becomes even more crucial if you are traveling a ton, especially if you're flying. Make sure you are drinking plenty of water on the days you spend the bulk of your time on a plane, train, or bus. Plus, when someone offers you an alcoholic beverage or sugary drink or dinner, turn them down and opt for a glass of water instead. It's a great way to avoid consuming empty calories.

2. Skip dessert: although it's completely justifiable to sneak a cookie or two post-family dessert, try not to go too overboard. After a huge holiday dinner, eating too many desserts can simply lead to unnecessary weight gain and just feeling awful the next day. If there's any fruit, try to stay near the healthier options instead of sampling every cake available.

Related Link: [Fitness: 5 Amazing Workout Tips from the Best Celebrity Trainers](#)

3. Snack wisely: when traveling, staying healthy might not be on the very top of your priority list – trust us, we get it. But when you're at the train station or airport, instead of stopping at a chain restaurant for a sugary snack filled with calories, pick up something healthier and equally sustainable like a granola bar. This small tip will most definitely go a long way, plus it's a great habit to have!

4. Rest up: the holidays can very quickly become a very stressful and busy time, so it's important to take some time for yourself. Enjoy your time off by having a few moments just for you. Take a relaxing bath or shower or even take a walk on your own. Small things like this are beneficial for both your

mental and physical health!

Related Link: [Celebrity Diet: 5 Diet Tips Tried & Tested By Your Favorite Celebs](#)

5. Stop yourself from overeating: even though all the food at dinner will be absolutely delicious, try your best to avoid overeating. Remember that overeating can certainly lead to being bloated, and a difficult mental state will prevent you from feeling good. It's okay if you want to sample a little bit of everything, but pay attention to how full you're becoming.

Celebrity Workout: How to Drastically Lose Weight Like Jonah Hill

By

[Melissa Lee](#)

Although this mega Hollywood actor has had his fair share of weight fluctuations throughout the years, Jonah Hill has recently been spotted looking fitter – and thinner – than ever. Hill, who has considered himself to be a victim of “yo-yo dieting”, reportedly sought help from his *21 Jump Street* co-star Channing Tatum. Tatum apparently pointed him the right direction and helped him find a team of nutritionalists and personal trainers so Hill could finally lose the weight in a healthy manner. After dropping at least 50 pounds, Hill is Hollywood’s newest fitness inspiration.

Check out some of these celebrity workouts and fitness tips to shed the pounds off just like Jonah Hill!

1. Alcohol hurts: Before his weight loss journey began, Jonah Hill was no stranger to binge drinking, beer being his favorite beverage of all. After meeting with a nutritionalist and attempting to find a way to drink beer and

still lose weight, he ultimately saw the effects it was having on his body. "It's so annoying because if I don't drink beer, I get really, really thin. Then when I drink beer, I get a little bigger," Hill says. The lesson here? Either learn to indulge in alcohol every now and then, or ditch the empty calories altogether.

2. Say goodbye to those nasty cigarettes: As if anyone needed anymore reasons to dislike cigarettes, here's another one: you can gain anywhere from five to ten pounds from quitting. People tend to substitute food with the lack of nicotine they're receiving, but you're better off altogether by quitting, despite the reported weight gain. Treat your body with respect and finally say goodbye to any remaining packs you may have.

3. End the battle with yo-yo dieting: Hill himself has expressed his frustration with yo-yo dieting – otherwise known as losing weight quickly and then gaining it all back. A recent study in the *International Journal of Obesity* reported that yo-yo dieting can serve some severe damage to your cardiovascular system, along with potentially increasing your risk of diabetes and heart disease.

4. Plan your grocery trips: Food shopping can tend to be an intimidating activity when you're trying to lose weight, but here's a way to help make the process a little bit easier. Make a list of items that you need (and be sure to stick to it!), and go food shopping after you've eaten a healthy breakfast. This way, you aren't particularly hungry while shopping, which should prevent you from stocking up on unnecessary snacks.

5. Chew: While this tip may sound a little ridiculous, trust us when we say it's not! Try your best to chew each bite at least 40 times when eating a meal. In a recent study, it was found that people that chewed their food more than twelve times ate less than those that didn't. It's even believed that chewing longer can lead to a more satisfied feeling.
