If you're worried about looking fabulous enough this summer to catch the attention of your dream guy, look no further than Fake Bake! With the help of these products, you won't have to dread showing some skin in those cut-off shorts and new bikini. The line's main goal is to give you the richest looking tan *without* the sun.

Each of its products are crafted to work for all skin types with no streaking. Not only do their self-tanning lotions and sprays have botanically-extracted ingredients and absolutely

no preservatives, they also moisturize, hydrate, and protect the body without clogging the pores or irritating the most sensitive skin. So, don't let negativity about your appearance prevent you from asking out your crush! Instead, invest in Fake Bake to look and feel your best.

First, protect yourself against the sun's harmful UVA & UVB rays with the non-greasy, fast setting, SOL Survivor SPF-30 "Sun Block" – perfect for a beach date. The Gelee Daily Body Wash is a full body cleanser designed to balance the skin's PH and maintain your tan for longer than ever. The Bamboo Buffing Polish, which can be used daily or only once a week and still be effective, renews your skin while getting rid of impurities to leave it smooth.

Additionally, the Flawless & Platinum Face and Application Mitt can be used together to help create a perfectly even tan, formulated with Fake Bake's very own triple tan formula for a better and longer tan. The Tanning Body Butter is designed with shea butter to "Butter-Your-Body-Bronze" and moisturize dry skin. Lastly, the Airbush Self-Tanning Spray is made with ingredients to bond with your skin's pigment so it can result in a tan that is more luxurious and natural-looking than you and your beau can imagine.

Lucky for you, one reader will have the chance to win a complete beach bundle from Fake Bake. Together, these products will ensure that your sweetheart can't look away!
