Fitness Trend: Exercise Snacking

y Nicole Maher

Many of us began the new decade with high hopes of our fitness New Year's resolutions. However, with the shut down of gyms across the country and drastic changes to our daily schedules due to the pandemic, these goals may have appeared unachievable. Faced with these new circumstances, many people began to turn to the new <u>fitness trend</u> of exercise snacking as a way of staying in shape, or beginning their fitness journey.

Find out some of the benefits of the new fitness trend, exercise snacking.

The question is, what is exercise snacking? Despite its name, it does not involve any food. Instead, exercise snacking refers to the act of breaking down a workout into five minute intervals throughout the day rather than completing it all in one sitting. Learn about the benefits of this new phenomenon:

1. Fits into a busy schedule: Whether we are working, attending classes, or spending time with friends and family, it can be difficult to devote an hour or more to working out during the day. Exercise snacking is a great way of breaking down workouts into smaller sections that you can fit between all the other activities in your day. Moving your body for five minutes before you leave for work or ten minutes before dinner can help you fit working out into your schedule without forcing you to compromise time on something else.

2. Great way to get started: If you are just beginning your fitness journey, exercise snacking is a great way to start. Jumping straight into a two-hour workout when your body is not used to it can sometimes cause more harm than good. By taking part in the fitness trend of exercise snacking, you are allowing your body to warm up to new movements. Over time, you can increase the amount of five-minute circuits you do a day, or transition to longer workout sessions once your body has adapted.

Related link: <u>Fitness Tips for Working Out While Wearing a</u> <u>Mask</u> 3. Useful addition to existing plans: While exercise snacking is a great way to begin a fitness journey, it does not have as many benefits for those who are already deep into their fitness plans. However, it can still be a useful addition for the days that you can't make it to the gym or set aside a large amount of time. Rather than forgoing exercise for the entire day, try exercise snacking in the spare time you have between tasks to keep yourself on track for your fitness goals.

4. Forgo the gym: There are many reasons people choose to avoid the gym. Whether you do not feel comfortable in a gym setting, or are concerned about the current health conditions around us, exercise snacking is the perfect way to workout from home instead. Many of the exercises found in plans surrounding this new fitness trend only require an exercise mat or a few weights, and can easily be accomplished from the comfort of your living room.

5. Master the moves: Exercise snacking is the perfect way to learn a new move. Rather than switching between exercises every set, you are spending the entire five minutes working on one move. This will allow you to really focus on nailing the move and strengthening that part of your body rather than thinking about what exercise you are going to do next. Once you have this move mastered, it will be much easier to complete in accurately if you eventually move to a longer workout routine!

Celebrity Diet: Are Detox Teas Good for You?

y Ashley Johnson

Going on a detox can sometimes be the best thing for your body and mind. However, taking detoxes to the next level can be dangerous if you are not careful. While the primary goal of a detox is to eliminate harmful substances from your body, detox teas may actually be inviting them in. In celebrity diet news, celebrities like <u>Khloe Kardashian</u> and Cardi B have endorsed detox teas on their Instagrams, while other celebrities like Jameela Jamil and U.S. Paralympic gold medallist Brenna Huckaby`have spoken out against them calling them 'toxic'. Before you take the detox tea diet to extremes in true celebrity fashion, Cupid has some <u>fitness</u> and <u>food</u> advice on what you should consider.

Here's some fitness advice on what to keep in mind before trying out the detox tea craze:

Teas are typically one of the healthiest drinks you can consume. They have been known to boost your immune system and protect your bones with the power of its antioxidants. However, detox teas are not always healthy and can sometimes contain a lot more than tea leaves. While some detox teas contain normal tea ingredients, others may contain toxins, drugs or medication. Contrary to drinking normal tea, here are some things you may want to watch out for when drinking detox tea:

1. Water weight loss: Detox teas don't actually make you lose body fat, but can help you lose water weight. Water weight is all the extra water that your body retains, and losing that water weight can certainly make you feel lighter. Even if you are not necessarily losing actual body fat, you can be tricked into believing you have, as two cups of water weighs approximately one pound.

2. Electrolyte imbalance: Consuming too much detox tea and having to frequently use the bathroom can lead to dehydration and ultimately electrolyte abnormalities. An electrolyte imbalance in your body means you are at risk for muscle spasms and an abnormal heart rhythm.

3. Unwanted side effects: Detox teas are primarily made up of the senna plant and caffeine, and these two ingredients together very much act as laxatives. This means the tea can be accompanied by diarrhea, abdominal pain, gas, nausea, and much more. The list of side effects for detox teas is rather long and also includes heart attacks, seizures and even death.

Related Link: <u>Celebrity Diet: Does Going Vegan Hurt Your</u> <u>Health?</u>

4. Caffeine: While the average tea contains less caffeine than a normal cup of coffee, detox tea may actually contain the highest amounts of caffeine when comparing the two. Of course this means the detoxifier also comes with some of caffeine's most unpleasant, yet common side effects. Side effects may include restlessness, nervousness, headache and fast heart rate.

5. Sleep problems: With detox teas having such high amounts of caffeine, having sleep problems should come as no surprise on this list of things to consider. You may not only experience problems falling asleep, but may also find yourself having trouble staying asleep. Furthermore, not getting enough sleep has also been studied to be linked to weight gain, which is probably the exact opposite of what individuals aim for when starting the detox tea diet.

Health Advice: Victoria's Secret Angels' Pregnancy Fitness

y <u>Katie Sotack</u>

With each Victoria's Secret fashion show, we're brought a parade of beautiful bodies strutting down the runway with toned arms and killer legs. These Angels are no stranger to a fit lifestyle even while pregnant. Models like Gisele Bündchen and Behati Prinsloo don't miss a beat because of their baby bumps. The Victoria's Secret Angels are here to prove <u>fitness</u> is an achievable lifestyle no matter the circumstance.

Angels follow strict <u>health advice</u> to be runway ready with a baby on board. How can the average expecting mother use their <u>fitness</u> <u>tips</u> to stay toned?

Regardless of the situation, fitness requires dedication and an inner drive. Once you have that it's all about knowing where to start. Following the Victoria's Secret Angels' routines and tricks will give your pregnancy a healthy boost. Here are the <u>health tips</u> for a pregnant <u>celebrity workout</u> and <u>diet</u>.

1. Start before pregnancy: During a sit down with your doctor, they're likely to say it's bad form to lose weight while pregnant. Not to mention the time to try strenuous workouts belongs before pregnancy in order to avoid stressing your baby. Being fit while carrying is about maintaining rather than achieving. This requires some planning on your part. If a fit pregnancy is important to you, begin a routine before you start trying.

2. Angel's workout: The models follow a strict body sculpting routine. For the first six weeks of training exclusively engage in cardio like swimming, dancing, or running. In the following six weeks focus on interval workouts which involve building muscle. The trick to a lean muscle is keeping the weight low and the reps high. The ratio should be twenty minutes of cardio to 15-20 weight reps, alternating back and forth throughout the workout.

3. A colorful plate: Angel mommies don't count calories as restricting can affect milk production and thus the development of your baby. Rather, pre-, post-, and during pregnancy fitness is about making healthy choices. Your meals should be colorful. Pile on the bright veggies to match with a white protein like chicken or fish. Carbs are essential as well, just lower the portion size and keep it brown (as in whole wheat/grain).

4. Post-pregnancy: To lose weight post-delivery, it's recommended to begin with leisurely walks. Anything harder than that should be proceeded by medical clearance and be

relatively low impact. Move onto water aerobics for cardio before adding light weight lifting. Respect where your body is and know it won't spring back to its pre-pregnancy levels immediately.

5. It's their job: While working to emulate an Angel body during pregnancy it's important to realize your limitations. For Victoria's Secret models it's their literal job to sculpt and tone their body while making sure to eat right. But for the average person getting to the gym for hours and knowing exactly what to eat is challenging. Not to mention the pregnancy cravings and fatigue. Give yourself leeway to have an ice cream cone every once in a while.

Fitness Advice: How to Get Your Best Booty

y <u>Jessica Gomez</u>

It's time to get off your butt and make it the best one you've ever had! We are in the age of the booty and a lot of us want a celebrity body. Hard work pays off, and combining a healthy diet with exercise is key — no surprise there. Eat plenty of protein and good fats (like avocados, nuts, beans, etc.) and veggies (broccoli, spinach, and other greens). Combine that with some killer workouts, and you're well on your way to your best booty! You'll be building muscle, toning, and shaping. What are some of the best workouts you should consistently do for your bum, you ask?

Well, here are six workouts to start doing on the daily that will

work out the different parts of your booty. Let's change our daily routine and get the butt we deserve with these <u>fitness tips</u>!:

If you'd like to include break days and not do these everyday, you can most definitely do so. It all depends on what your body is used to. You should always push yourself, but not beyond your limits. Remember to pace yourself and always stretch for about five to 10 minutes before exercising:

1. <u>Squats</u>: These bad boys workout your thighs, hips, and butt. Make squats your best friend. You can try starting with 20 to 50 squats the first day (depending on your current limit). After that, each day, you can add five squats. You can increase the number of squats from five more to ten more gradually. Just pace your progress. Like mentioned before, make sure to push yourself, but don't stress your body.

2. Donkey Kicks: These are great for the bottom of your butt, your lower back, and legs. Aren't butt workouts wonderful? They workout multiple body parts simultaneously! Make these your best friend, too. These should be easier than squats, so aim to do more of them.

3. <u>Marching Hip Raises</u>: Guess what these workout? Besides your butt, they workout your hamstrings and abs. Talk about shaping your booty and your bod! Try to do as many as you can and start from there. Everyone can do it at their own pace. Just remember, the more you workout (at a healthy rate of course), the faster the results. Again, please make sure not to strain your body aka your temple.

4. Glute Bridges: Working your abs and butt, these babies

should be included in your exercise routine. It's a strengthening move that will help your core. They can also improve your posture. Hey, for some of us, this can be a way to ease ourselves into yoga!

5. <u>Side Skaters</u>: This move works out all of the above: your butt, thighs, hamstring, and core. It's both an essential part of your butt workout and it provides you with good cardio. They can be pretty fun to do once you get out of a lazy mood.

6. Lunges: These are famous, but can be a pain. Remember, it's all about consistency and making these exercises practically a habit. They workout your hips,quads, hamstrings, core, the hard-to-reach muscles of the inner thigh, and your glutes. You can do lunges at the gym, in your room, <u>on the stairs</u>, etc. Speaking of stairs, if you can, take them. <u>Walking up stairs</u> is a fabulous exercise because it works so much out, including your rear end, of course!

Fitness Trend: Cold Therapy

y <u>Haley Lerner</u>

Cold therapy, or cryotherapy, is one of the coolest (pun intended) <u>fitness trend</u> going on right now. Cold therapy is when you apply something frozen or cold to an area of your body to treat pain. There are various methods of cold therapy, such as icepacks, ice massage, whirlpools, ice baths or coolant sprays. We've got some reasons why cold therapy is one of the best ways for managing pain.

Check out our <u>fitness tips</u> on why cold therapy is a great pain management option for you!

1. Pain relief: Cold therapy is a great pain relief option instead of pain relievers. Cryotherapy can reduce swelling and sensitivity to pain. Cold therapy is very useful directly following an injury, as it constricts blood vessels to reduce blood flow to the area, limiting inflammation and muscle spasms. 2. Burn fat: By exposing yourself to the cold, you activate brown adipose tissue, or BAT. BAT helps produce energy and oxidize fat in muscle tissue. By using cold to activate BAT, your body generates heat, raises your metabolism and burns off fat.

3. Be more alert:Nothing wakes you up more than a cold shower. Cryotherapy can be a great option to help you focus and stimulate your mind to be more awake during the day.

4. Better your mood: Some studies show that cold therapy can actually increase your mood. Since there are a high density of cold receptors in the skin, a cold shower can actually send a huge amount of electrical impulses from peripheral nerve endings to the brain. This can then result in an antidepressive effect.

5. Increased immunity: Cold therapy can apparently help your immune system, as thermal stimulus to cold gives your body an increased tolerance to stress on your body. So, your body is better equipped to handle any diseases thrown at it.

Fitness Tips: Form A Work Out Squad

y <u>Haley Lerner</u>

Sometimes motivating yourself to hit the gym can be pretty tough. Exercising alone can be intimidating and it's difficult to get yourself to actually do it and get the <u>celebrity body</u>

you've been dreaming of. That's why forming a work out squad is the perfect solution to all your problems. With a group of other people to work out with, you can't simply bail out on going to the gym and will have others to help motivate you. Luckily, we have the <u>fitness tips</u> to help you find others to work out with.

Check out these fitness tips on how to form a work out squad:

1. Assemble your members: The first step to forming your squad is finding members to join it. Recruit friends of yours who enjoy working out and ask them to invite their friends. The more, the merrier! If you have a smaller circle of friends, post in local fitness Facebook groups that you are looking for some buddies to hit the gym with.

2. Choose your work out style: Now it's time for you and your group to figure out what method of working out you want to do. Will it be yoga, Pilates, spinning, kickboxing or something else? Find out what your members are interested in doing and take it from there.

Related Link: <u>Celebrity Fitness Secrets: Ways to Work-In An</u> <u>Early Morning Workout</u>

3. Make a plan: Once you know what style of working out you and your squad are going to do, set up a schedule of when you all are going to work out together and what your overall goals are. Signing up for a work out class that you have to pay in advance for can help make sure your members are actually going to show up to scheduled work out sessions.

4. Keep in touch: It's important that as a group every person stays up to date with each other regarding when they're hitting the gym. Create a texting group chat or Facebook group so all members of your squad can talk to each other and make plans.

5. Have fun: One of the best parts of forming a workout group is that you can make new friends and get closer to old ones. To get the group closer and make your work outs together better, set up times to hang out after gym hours. Hit up bars, have movie nights and have fun with your squad!

Fitness Tips: 6 Ways to Avoid Putting on Extra Holiday Pounds

y <u>Karley Kemble</u>

The holidays are a wonderful time of year filled with lots of

reasons to celebrate. With so many parties and gatherings, it's easy to break away from healthy habits, and even easier to add numbers to your scale. While holiday weight gain is usually inevitable, you can put up a good fight. How cool would it be to say you actually *lost* weight after the New Year hits?

If you're worried about gaining weight during the holidays, check out these <u>fitness tips</u> that'll help prevent the scale from climbing. After all, Cupid doesn't believe in keeping fitness secrets.

1. Workout in the mornings: In most cases, parties are held in the afternoons or evenings, so if you're heading to an evening shindig fit in some exercise in the morning. Starting your day off with fitness really sets the whole tone for your day and will make you more conscious of the foods you put in your mouth. You also are less likely to feel guilty about treating yourself to grandma's homemade gingerbread cookies!

2. Walk after dinner: It doesn't seem likely that you'll leave early from a holiday party and head straight to the gym. There is some good news — you can still get those Fitbit steps in. Start a new family tradition and go on a good walk around the neighborhood. While it may not be the most intense cardio workout, it still counts for something. Plus, you can bond over all the houses decorated for the holidays!

Related Link: Dating Advice: How to Avoid Holiday Weight Gain!

3. Take advantage of commercial breaks: If you find yourself glued to the T.V. for all the holiday specials and every new

Hallmark Christmas movie, the couch potato life can really take a toll on your weight. Utilize the 15+ minutes of repetitive ads, and turn your living room into a mini home gym. You can do a ton of exercises – crunches, pushups, jumping jacks – the list is really endless! Find what works for you and go for it. By the end of the movie or show, you'll have a decent workout in.

4. Snack beforehand: Never go to a party hungry! When the "hanger" kicks in, it's almost impossible to control yourself. Make sure you eat a little something beforehand, so you don't become ravenous. You'll be more mindful of what's going into your mouth and will significantly reduce the chances of a regrettable binge eating episode.

Related Link: <u>Dating Advice: Don't Be Afraid to Sparkle During</u> <u>the Holidays-Even If You Are Single</u>

5. Bring a healthy dish: While there is a bit of uncertainty with the menu at a party you're invited to, your host/hostess will definitely appreciate some extra help. No matter what you're asked to bring, there is always opportunity to put a healthy spin on a dish. That way, you know at least one thing is a good choice. Don't be worried about people skipping over your dish because of your modified recipe, most people can't even taste a difference.

6. Plan, plan, plan: What's great about the holidays is that you can prepare your action plan beforehand. The big holidays fall around the same time every year, so you know what to expect. Eat healthily in the days leading up to a holiday party, and fit in workouts around your busy schedule. Establish as much consistency as you can – breaking the routine is what causes you to stray and will cause weight gain.

As long as you have variety, you will never get bored.

2. Update your diet: One of the simplest and most effective ways of improving your health and fitness is to enhance your diet. Cut out unhealthy things like sugar and sweets and add more protein to your meals. Performer <u>Calvin Harris</u> achieved this when he showed off his daily breakfast. This is super beneficial and intensifies the workout. Do as many reps as you can in one minute, then repeat. 2. Pushups: Although they're everyones least favorite workout (upper body exercises are definitely a pain), pushups are extremely beneficial. Fitness Tips: Staying Healthy During the Holidays

y <u>Melissa Lee</u>

The holiday season is all about family gatherings, giving (and receiving) gifts, and *food*! Regardless of what you celebrate during the holidays, there is bound to be a ton of delicious food that seems almost impossible to resist. If you find yourself having a difficult time staying healthy during the winter season, don't stress too much. We've got you covered with a few ways to look (and feel) your best!

Check out these fitness tips on how to stay healthy this holiday season!

1. Stay hydrated: this is just a general, every day fitness tip, but water is super important. This becomes even more crucial if you are traveling a ton, especially if you're flying. Make sure you are drinking plenty of water on the days you spend the bulk of your time on a plane, train, or bus. Plus, when someone offers you an alcoholic beverage or sugary drink or dinner, turn them down and opt for a glass of water instead. It's a great way to avoid consuming empty calories.

2. Skip dessert: although it's completely justifiable to sneak a cookie or two post-family dessert, try not to go too over board. After a huge holiday dinner, eating too many desserts can simply lead to unnecessary weight gain and just feeling awful the next day. If there's any fruit, try to stay near the healthier options instead of sampling every cake available.

Related Link: <u>Fitness: 5 Amazing Workout Tips from the Best</u> <u>Celebrity Trainers</u>

3. Snack wisely: when traveling, staying healthy might not be on the very top of your priority list – trust us, we get it. But when you're at the train station or airport, instead of stopping at a chain restaurant for a sugary snack filled with calories, pick up something healthier and equally sustainable like a granola bar. This small tip will most definitely go a long way, plus it's a great habit to have!

4. Rest up: the holidays can very quickly become a very stressful and busy time, so it's important to take some time for yourself. Enjoy your time off by having a few moments just for you. Take a relaxing bath or shower or even take a walk on your own. Small things like this are beneficial for both your

mental and physical health!

5. Stop yourself from overeating: even though all the food at dinner will be absolutely delicious, try your best to avoid overeating. Remember that overeating can certainly lead to being bloated, and a difficult mental state will prevent you from feeling good. It's okay if you want to sample a little bit of everything, but pay attention to how full you're becoming.
