## Cupid's Advice:

Pregnancy isn't all about the "glowing." There are trials and tribulations to overcome during those nine months, and it's important to support your partner along the way:

**1. Listen:** The most important thing you can do for your relationship and your love life is to pay attention to your partner's needs while she is pregnant. Let her tell you everything she's feeling, experiencing, and thinking about. Sometimes, she may get very emotional and need to vent. Other times, she may just want to share with you that the baby is kicking. Help her remain relaxed and happy.

### **Is it important to take a person's past into account pre-relationship? Cupid's Advice:**

When entering into a new relationship, many of us try to look at it as a fresh start and let the past be the past. But, is it even possible to change? Cupid has some things to think about when looking into your partner's old flings:

**1. How it ended:** Sometimes things just don't work out, but it's important to look at why they didn't. If your partner and his or her ex ended amicably, then there may not be much to inquire about. But, if there's bad blood, you might consider finding out more details.

**2. Did he learn from it?:** Of course people make mistakes, and every mistake is a learning experience. One of the important things to look at when asking about a prior relationship that ended badly, is if he exhibits the same behavior that was previously an issue.

**3. Level of commitment:** Did your partner have a few serious relationships, or did he just jump around? Gauging his/her's level of commitment from their previous partner(s) allows you a glimpse at what to expect.
