By Nicole Maher

On the Rocks is the newest comedy-drama movie directed by Sofia Coppola. The [movie](#) stars Bill Murray and Rashida Jones as a father-daughter duo on a quest to determine if the husband of Jones' character, Laura, is cheating. While this may seem like a weird adventure to take with your father, Laura's father has an extensive playboy past who has left him absent for most of her life, making him the perfect person to help uncover her husband's player actions. As the two begin keeping taps on Laura's husband, they grow closer and are given the opportunity to repair some of the damage in their relationship caused by Felix's (Bill Murray) absence.

Should you see it: If you are looking for a new take on family relationships, then *On the Rocks* may be just what you are looking for. The movie explores the complications of both parent-child relationships as well as marriage, but is sure to add plenty of comedy to get you laughing in between the drama.

Who to take: *On the Rocks* is the perfect movie to watch with your best friends or partner. The movie has a lot of sarcastic humor and quick one-liners, so it is perfect to see with someone who you are ready to laugh with.

Cupid's Advice:

As Felix and Laura work to determine if Laura's husband, Dean, is truly busy or if he is being unfaithful, Felix reveals many telltale signs of being a play-boy. While relying on suspicion rather than hard evidence is not the best way to determine if someone is being unfaithful, knowing some of the signs of a play-boy is a good way to hunt out red flags in a relationship. Cupid has some relationship advice on how to determine if your partner is remaining loyal or is actually a playboy:

1. If they're excited to see you: In the movie, we see Dean and Laura awkwardly greeting each other after Dean returns from a work trip. Whether it's coming home at the end of a workday or returning after a week-long trip, your partner should be excited to see you. This does not mean that your partner needs to be all over you the second they come home, but if they are constantly returning without expressing how much they missed you, it may be a red flag.

2. If they're sticking to their travel plans: It's common for someone to be concerned about the fidelity of their partner when they are forced to travel often. However, if your partner is following the travel plans they have told you, then there is likely no need to worry about them being faithful. The only time a red flag should be raised is if your partner has repeatedly been someplace different from where you expected they were going.

3. If they're willing to have a conversation: At the end of the day, the best way to go about suspicions of infidelity in a relationship is to have a conversation with your partner. If someone knows that they've been acting like a play-boy, then they will likely be more standoffish to the idea. However, if your partner has been remaining loyal and cares about the relationship, they will be willing to address your concerns and speak through them.

While the couple intends to spend the perfect weekend together, their plans are quickly derailed as Ashleigh gets caught up working with the director. During this time, the couple is forced to face new challenges such as kissing other girls and spending time with other men, and both begin to wonder if their relationship will survive.

Check out our movie review of *A Rainy Day in New York*, the newest

young love story with a vintage feel.

Should you see it: If you are looking for the perfect mix of a vintage-inspired setting with all the twists and turns of modern love, *A Rainy Day in New York* is worth the viewing. The movie contains both elements of an old-timey New York City and elements of modern-day relationship challenges, making it unique and familiar at the same time.

Who to take: *A Rainy Day in New York* is the perfect movie to see with your best friends. The movie will definitely have you and your friends relating to the challenges of young dating if you are experiencing them right now, or have lived through them in the past.

Cupid's Advice:

A Rainy Day in New York explores both the thrills and complications of having a serious relationship at a young age. While Gatsby Welles and Ashleigh Enright appear to be basking in their college romance at the beginning of the film, they are quickly presented with obstacles that bring into question the strength and duration of their relationship. With so many decisions being made in the transition between school and beginning a career, it can be difficult to determine if a relationship will survive. Cupid has some [relationship advice](#) on how to determine if your current relationship will carry into the next stage of your life:

1. See if your career plans match: While you and your partner definitely don't need to be working in the same field post-graduation, having careers with a similar structure can help the relationship survive. Challenges may arise if one of your careers requires you to work during the day while the other person is working nights, or if one person needs to travel often while the other must stay put. These obstacles can be

overcome with a lot of communication and compromise, but they are definitely worth discussing as the two of you enter this new stage of your lives.

Related Link: [Movie Review: Seberg](#)

2. Talk about where you'll be living: If you and your current partner attend the same college, then it's likely that you spend a lot of time in the same town or on the same campus. However, you may find yourself looking to settle down in different places after graduation. Have a conversation with your partner about where they see themselves in the next few years. Determine if you are both looking for apartments in a city or houses in the country, along with what region of the country you want to live in. While relationships can survive distance for a period of time, the issue may come up again later if the two of you are looking to eventually move in together and can't agree on where.

3. Decide if you're ready to settle down: One of the most important questions that you need to ask yourself during this transition period is whether or not you are truly ready to settle down. Graduating college or simply moving someplace new comes with a variety of new opportunities, and it is important to decide if your current relationship is worth missing some of those opportunities. Have a conversation with your partner about where they see the relationship going in the future. If both of you are certain that you want to be together long-term, then get excited about taking on these new steps of life together!

Queen and Slim are there for each other through thick and thin. Their relationship escalated from casual to "ride or die" within 24 hours. Cupid has some advice on how to be a "ride or die" for your partner:

1. Have open conversation: A relationship has to have a solid foundation. Start with being upfront. Over time, you both will get to know each other, and it is important to be open and honest. This will help with decision making in the future.

Movie Review: Lady and the Tramp

By [Hope Ankney](#)

Get ready for another animated Disney re-make! *Lady and the Tramp* is the next film to be offered a reboot, but unlike its predecessors, it won't be coming out in theaters. It'll be

offered through Disney's newest streaming service starting on November 12th. Don't worry, though. The adored [movie](#) will still stick to its classic story-line. The journey follows a pampered Cocker Spaniel named Lady whose life is ripped away from her once her owners have a baby of their own. She goes through certain circumstances that lead her onto the streets, where she meets the tough and brawny stray dog, Tramp, who comes around to protect her. Soon enough, a romance between the two starts to blossom, but the differences in who they are and where they come from threaten to keep them apart.

Check out our movie review for *Lady and the Tramp*, a perfect film for the whole family!

Should you see it: If you were already a fan of the beloved classic, love a good, family-friendly movie that caters to all ages, adore dogs, or are always up for a heart-warming experience, you should definitely consider seeing this film. And, unlike other animated remakes that Disney has done, *Lady and the Tramp* feature real dogs and isn't made up of mostly CGI!

Who to take: This movie is perfect for any family outing with the kids, your friends when you're wanting to experience nostalgia, or even as a light rom-com for a casual date night! The story-line is made to entertain everyone that sees the film which makes it an easy and enjoyable watch for anyone who is even slightly interested!

Cupid's Advice:

Lady and the Tramp is known for how it marries a child-like adventure story with an unforgettable romance. Always acting as a loose interpretation of Romeo & Juliet, it focuses on how differences between two people can hinder the success of a

budding relationship. If you've ever found yourself in a position where you and your partner have major differences between both of you, don't automatically call it quits! Cupid has some [relationship advice](#) on how to stay together even when it seems like you're differences can tear you apart:

1. Talk about expectations/differences and negotiate: It's tough to have a conversation about expectations in a relationship. It's even harder when that conversation steers towards things that bother you about certain aspects between you and your significant other. But, having these hard discussions can help you and your partner grow stronger. Work together when it comes to making decisions and following through on expectations. It's a good start to being able to have differences and disagreements that don't, ultimately, feel like a personal attack anytime they're brought up.

2. Let the differences be a positive thing: Depending on the circumstances, some differences can actually be good to have in a relationship. Being with someone who shares the same opinion or values about everything as you do can actually be quite boring and bland. Differences between two people give texture to the romance and can make the relationship fun and exciting. You should always be growing and changing in your relationships, so being with someone who shows you new ways to perceive life and opens you to new experiences is always something you should be looking for.

3. Only compromise when it's worth it for both of you: There's no such thing as a relationship without compromise. But, you should never find yourself in a relationship that has you compromising more than the other person. Every couple handles differences and the compromises to those differences in unique ways. So, the key to having a healthy and successful

relationship is to find ways where compromise doesn't seem like a bad thing, and it can help both of you to become happier and better people.

Movie Review: The Sky is Pink

By [Hope Ankney](#)

If you're in the mood for a love story that pulls on your heartstrings and takes you on an emotional journey, look no further than Priyanka Chopra's newest Hindi [movie](#), *The Sky is*

Pink. It acts as the true story of Aisha Chaudhary, a teenager who had pulmonary fibrosis whose parents dedicated their whole lives to helping her survive. Choosing not to focus on the illness aspect of the story, the film is narrated by the daughter, who instead details the incredible love story of her parents. She lets you know quite early on that she's speaking from beyond the grave, but her retelling of her parents' 25-year relationship is nothing short of hilarious, heart-warming, and, at times, heart-wrenching as it touches on the beauties of life and death.

Check out our movie review of *The Sky is Pink*, a perfect rom-com for date night!

Should you see it: If you're a sucker for romantic comedies, love a good immersive, emotional experience, or gravitate towards true stories, you should definitely go give it a watch. It's a modern twist on the general love story, and if anything, it's refreshing as it is inspiring.

Who to take: This film is perfect for date night with your partner or even a girls' night with your girlfriends! Having moments of tenderness mixed with humor is the recipe for a great movie experience with others. Besides, you can wipe each other's tears, too.

Cupid's Advice:

The Sky is Pink inspires us and how we treat our relationships. To see a couple go through such trials and tribulations spanning 25 years, and yet they still choose one another at the end of the day is something that should be enacted in our own lives. Knowing that the film isn't an act of fiction but based on a true couple makes its impact even greater. Here is some of Cupid's [relationship advice](#) on how to

have a loving and lasting marriage, yourself:

1. Learn how to handle fights: It shouldn't be shocking to anyone that relationships will have their fair share of fights, but it is in how you deal with those fights that matter. Surprisingly, some studies have shown that arguing is one of the healthiest things a couple can do. It allows both you and your partner to explain why you feel the way you do and to find a way to solve the conflict. Couples that engage with arguments and learn how to handle fights are more likely to be satisfied with their marriage than couples who choose to ignore conflict, altogether.

Related Link: [Movie Review: The Joker](#)

2. Don't always empathize: We've all been in conversations with our significant other where one of us is having a bad day and the other simply says, "me too." Saying "me too" can actually be damaging to a relationship because it can become a barrier to real communication. Those words shut the other person's feelings down even though we think we're being empathetic. Instead, if your partner is having a rough day, choose not to empathize but to listen to what happened and offer your support. Having a commitment to listen to their problems is something that can make all the difference.

Related Link: [Movie Review: Hustlers](#)

3. Be a little old-fashioned: It's not always bad to have old-fashioned morals. When it comes to marriage, having traditional views on certain issues is actually a good thing to ensuring a long-lasting marriage. Is my partner going to be able to provide? Are they going to be a good parent? How do they get along with my friends and family? These are all questions that can determine if a marriage will be worth the long-haul. Don't get caught up in the feeling of love, because reason and logic have to be important aspects of your relationship too.

Movie Review: The Joker

By [Hope Ankney](#)

If you're looking for a dark and psychologically thrilling film to jumpstart Halloween, Joaquin Phoenix's adaptation of *The Joker* is the perfect one for you. The film focuses on the origin story of the infamous DC comic villain, and his descent into chaos and madness. Arthur (The Joker's given name) has

never felt like he genuinely fit into society. As a failing comedian, he tries to find purpose on the streets of Gotham City. Yet, he continuously feels the need to wear two masks-one for his day-job and the other to try to fit into the framework of the world that has, overtly, rejected him. The only person who has shown Arthur any sense of empathy and kindness is his neighbor, Sophie Dumond. They form a connection as she tries to help better his circumstances and make him feel less alone. Unfortunately, this comes on the heels of his descent into the madness that ultimately transforms him into the criminal mastermind we now know him to be as The Joker.

Check out our movie review on *The Joker*, a psychologically-gripping movie for you and your friends if you're trying to jumpstart the Halloween spirit!

Should you see it: If you're a fan of DC comics, dark thrillers, themes of isolation and empathy, or you're just are looking for something creepy enough for the spooky month of October, definitely go see it. Besides, there's something oddly reassuring about the relationship forged between Arthur and Sophie, a certain kindness for those struggling that isn't reciprocated nearly enough these days.

Who to take: *The Joker* is rated R, so consider taking your friends or a date that loves dark and gritty films! Be wary of the violence, but be ready for a lot of good and tense cinema.

Cupid's Advice:

Even though the [movie](#) doesn't entirely focus on the connection that transpired between Arthur and Sophie, it is one that we

think is an important aspect to take note of! Our main character is susceptible to falling through the cracks, yet Sophie takes it upon herself to reach out her empathy and understanding of his isolation to try and help him in any way she can. This can also be said for any relationship where one of you is struggling more than the other. Being in a partnership comes with its ups and its downs, and sometimes we need our significant other to be that Sophie Dumond for us when we're feeling down. Here's Cupid's [love advice](#) on how to be there for your partner when they're going through a tough time:

1. Be fully present when they want to talk to you: Not everyone wants to talk about their situation when they're struggling, but if your partner does come to you at some point to discuss their hardships, make sure you're there for them. Giving your significant other the undivided attention they deserve when they're speaking out about their circumstances is incredibly important for them to feel supported by you.

Related Link: [Movie Review: Hustlers](#)

2. Empower them, even if it's in small ways: Sometimes, a partner can be less than motivated to do even the smallest of tasks when they're down. But, if you keep encouraging them to complete something and make them feel worthy when they do, this can go a long way for helping them realize their worth and purpose. This can be as mundane as answering emails, cooking a meal, or even running some errands. Productivity can make a huge difference when someone is having a tough time.

Related Link: [Movie Review: The Lion King](#)

3. Let them know they're not alone: Adversity can cause people to have a negative view of themselves and their lives. As a partner, you must be able to validate their feelings while also letting them know they aren't going through this alone. Relationships are built on the foundation of being a team.

Whatever happens to one affects the other. Help them not to lose sight of that.

Movie Review: Judy

By Mara Miller

If you've seen *Wizard of Oz*, you know the song *Over the Rainbow*. Judy Garland not only took over the role as Dorothy

Gale in the original *Oz* but had a successful movie career until MGM released her in 1950. *Judy* follows Judy Garland's trip to England in the winter of 1968 to perform in a series of sold-out concerts. She faces not only leaving behind her children in America, but also finds love as she struggles during her time spent in London.

In *Judy*, Garland's struggles between her music career and her family are a struggle and center point for this [movie review](#).

Should you see it: Yes! Renee Zellweger is an amazing actress, and from what little we've heard of her cover of *Over the Rainbow*, she brought Judy Garland back to life beautifully.

Who to see it with: Grab your partner for a date night to see this movie!

Cupid's Advice:

Garland had trouble balancing her career and family, and you might be, too, but don't beat yourself up over it. It can be a delicate scale when it comes to figuring out how to juggle work, kids, and a partner, especially when the work you do is demanding. Here's Cupid's Advice on how to stay organized so you can balance your work and personal life:

1. Self-care: Self-care is an important part of balancing your work and personal life. If you aren't taking care of yourself, your family and work performance will suffer. Take the time you need to sleep in for 15 more minutes, go on a date, or take your kids to a playground and put the technology down for a while.

Related Link: [Movie Review: The Informer](#)

2. Let go of the guilt: It's easy to feel incredibly guilty when we can't be there for our families as working women. Maybe you work more hours than your partner who has a physically taxing job, so the dishes and the rest of the house have started to fall apart. Don't beat yourself up feeling horrible when a plate doesn't get washed or your new puppy tears up a DVD case. This will be good for you mentally and emotionally in the long run.

Related Link: [Movie Review: The Lion King](#)

3. Find a new appreciation for date night: Pick one night a week that you and your partner can get away from the kids with a baby sitter. Forget about work for a while and just enjoy being with them for a while. Couples who continue to date even after they get married have more of a chance of making things work than those who don't.

Movie Review: 21 Bridges

By [Katie Sotack](#)

Chadwick Boseman and J.K. Simmons star in a new action thriller that'll have you perched straight in your seat. Boseman plays an NYPD cop who uncovers a conspiracy surrounding two cop killers. The [movie](#) takes place in the course of one night where Boseman's character becomes increasingly unsure of who to trust. As tensions rise and the chase goes on, the city closes down all 21 routes of escape from Manhattan to prevent the killers from fleeing.

21 Bridges is a star soaked, action-packed thriller that'll leave you questioning who to trust and where to turn.

Should you see it: *Avengers: Endgame* directors had a hand in making this film and Chadwick Boseman stars. If you're a fan of the Marvel Cinematic Universe for its action scenes rather

than it's one-liner comedy and enjoy the shaky anticipation a good chase, check out this movie.

Who to take: This is a movie for the in-depth friend who can talk about anything and everything afterward at dinner.

Cupid's Advice:

Knowing who to trust is not a science, but an art. Try as psychologists might, we can't all be trained in the micro-twitches of a liar's facial movements. Instead, think of trust as a building exercise. Here are [relationship tips](#) on establishing and maintaining trust.

1. Intuition: Security to the stars and traumatized victims, Gavin de Becker famously exclaimed to the world "Trust your intuition!" in his self-help book *The Gift of Fear*. Often read in self-defense classes and by women seeking ways to minimize attacks, the book is ultimately about relationships (both long term and immediate). The most essential advice from every chapter is, "trust yourself first and foremost." Social niceties teach us to suppress our illogical worries, but your body and mind have intuitive reasons for that gut feeling. Next time you feel something 'off' in your relationship, speak up.

Related Link: [Movie Review: The Lion King](#)

2. Honesty: The number one way to establish trust is honest and open communication. This means intimacy and it can sound scary. Take the process one step at a time. The first few dates are not the time to confess that embarrassing time when you walked into a wall because you were nose-deep in your cell phone. Talk about your hopes and dreams to build gradual intimacy and add in the embarrassing or deeper feelings once trust has been established.

Related Link: [Celebrity Vacation: Jason Momoa & Lisa Bonet Explore Italy After Zoe Kravitz Wedding](#)

3. Keep True: A far more practical take on the establishment of trust is by staying true to your word. If you promise to do something, make sure you stick to it. Think of it from your partner or friend's perspective. Had they promised to pick you up at the airport but instead left you searching to find a cab, you'd feel cheated. Instances like this make a person seem unreliable and would encourage the receiving person not to trust the, with another task.

Should you see it: If you believe that women are treated unfairly and not paid as much as men, definitely go see it. Women deserve to be paid equally to men, and this movie is a great movie to remind you that you are worthy, and you are a BOSS.

Who to take: If you are looking for a female empowered film, grab your best girlfriends and head to the theater! It's the perfect movie for a girl's night out.

Cupid's Advice:

We're inspired by the drive these girls have, and the willingness to do anything for their family, no matter what. These girls know that even though they are being treated unfairly, they are true girl bosses and will do whatever it takes to fix that because they know what they deserve. Here is some of Cupid's advice on how to stand up for yourself in the

face of adversity:

1. Practice being transparent and authentic: This can definitely be hard at first, but the more you practice being open and honest with people in your life, the more you won't have to deal with carrying a constant weight on your shoulders. Tell these people how you feel, and no one will be able to tell you otherwise!

2. Clarify first, without attacking: Figure out what the root of the problem is. You are aware of your viewpoint, but take a moment to listen to the other side. Are you truly in the right or wrong? By clarifying what you mean and listening to the opposing side, you can start a real discussion and get to the solution quicker.

Only matters become more complicated with the informant's family to consider and the local police department breathing down the FBI's back. A story of power, corruption, and vengeance, *The Informer* will keep you on the edge of your seat, praying that our hero makes it through.

your toes!

Should you see it: If you're looking for a suspenseful crime drama that'll spike your adrenaline and have you rooting for the underdog, this film is right for you.

Who to take: *The Informer* may be deal with darker themes, but it's centered around family being everything. The movie is too mature to bring the kids, but it's perfect for date night. Grab your partner for a reminder that no matter what stands in your path, you can fight your way back to family.

Cupid's Advice:

The protagonist's drive to live free with his family is inspiring. His risk taking and perseverance show a man dedicated to his wife and little girl. With that in mind, here are ways to prioritize your family:

1. Have a set work schedule: It's difficult to prioritize your family when you never see them. By having a set work schedule your family will know that you will reliably be present at certain times of the day. This isn't possible for everyone, but if you can, obtain a consistent schedule with hours aligned with your family's time table.

2. Quality time: Along with a consistent schedule, it might be tempting to poop out at the end of the day. If the couch is calling your name it's still important to make an effort. By all means, lay down and take a nap. But cut the time in half and make room for your loved ones in your day.

3. Be their safety net: While Kinnaman's character's adrenaline junkie risk taking might be sexy on screen it has many negatives in real life. When it comes to adventures it's better to check in with your significant other on their

opinion and it's effect on the family. As the patriarch or matriarch of the family you should provide a sense of security.

4. Avoid arguing: Perhaps the hardest advice of all for some. It is perfectly fine to have a disagreement, but don't let that turn into an all out war. When dealing with conflict, treat the members of your family with respect and patience. Eventually things will settle down and compromise will occur.

Cupid's Advice:

Simba faces a lot of challenges. He has to take over his entire kingdom back and has very little support in doing so, but his biggest supporter is Nala, his childhood friend/love. What are some ways to be supportive of your new partner when they face a stressful situation?

1. Listen to them: Let them vent. Venting can be therapeutic. Try not to interrupt. Listening will show them you are supportive of whatever decision it is they need to make.

He has to learn to believe in himself and understand that he is good enough to defeat evil even when he doesn't have the backup of the Avengers at his side. We have some advice about believing in yourself to overcome any negative obstacle that stands between you and success:

1. Believe it is possible: You set the tone for your own life and legacy. If you want to overcome anything that tries to stand in your way, then it is important that you believe in yourself. If you tell yourself you can achieve your dreams and be successful, and take action, then you will find yourself turning your dreams into realities in your future.

Movie Review: Ophelia

By [Bonnie Griffin](#)

Coming to theaters June 28th, IFC's movie *Ophelia* brings us the story of Hamlet with more action and steamy romance than we've seen before, starring Daisy Ridley and George MacKay. Set in medieval-era Denmark, Ophelia falls for Hamlet, but their union is threatened when treachery strikes the royal court, derailing Hamlet's claim to the throne. Ophelia is caught in the middle, torn between choosing love or loyalty. Check out Cupid's [movie review](#) below!

Check out our movie review on *Ophelia*, a romance and drama-filled film that's great for date night!

Should you see it: If you're looking for a movie that combines romance, drama, and action, then *Ophelia* is the movie for you.

Who to take: *Ophelia* is a great emotional story of love versus loyalty that would make a great movie for [date night](#).

Cupid's Advice:

We're intrigued by the multiple dynamics in IFC's *Ophelia*. The blooming romance between Ophelia and Hamlet, the betrayal in the court by Hamlet's own family, and the battle Ophelia faces to choose between her love for Hamlet and her loyalty to the throne. This is bound to be one super-charged romance that you don't want to miss. Cupid's has some advice on when you should decide between love and loyalty:

1. When the one you love is making a negative decision: We've all been in love with someone who occasionally makes a poor decision. We are all human and mistakes are inevitable. Sometimes, the person you love might make a poor choice that forces you to choose sides, such as choosing their side over your loyalty to your family. Just because you love someone does not mean you always have to agree with them, especially if they are asking something of you that is not in anyone's best interest.

Related Link: [Movie Review: See The Modern Retelling of 'Little Women'](#)

2. When loyalty means ditching someone you love: Sometimes the people or organizations we are loyal to try to make us abandon those we love. Have you ever had a job you were loyal to tell you that you cannot call out to take care of your sick child? They want you to put your loyalty above the health of your sick kid and that is a time you might want to fight the battle and choose love over loyalty; after all, if they ask you to leave behind your sick child, it sounds like that loyalty only runs one way.

Related Link: [Movie Review: Adrift](#)

3. Choosing your life partner: It is never a happy thing to think that members of your family might reject the person you love, the person you want to spend your life with and marry, but it happens. If your family tries to force you to choose

your loyalty to them over your own happiness and the person you're in love with, it can be hard to choose a side because it's a tough situation. Ultimately, you need to decide what you need to be happy, and if that is the person you fell in love with, choose them because your happiness is just as important as your family's. In the end, they may accept your partner over time.

In his attempt to impress Princess Jasmine, Aladdin falls prey to the power-hungry Grand Vizier who convinces him to go after the genie's lamp, but Aladdin decides to keep the genie to himself and he is faced with some hard decisions when the power of the genie nearly steers him down the wrong path and almost costs him the girl.

laugh, and that not all girls care about fame and fortune, then *Aladdin* is a great film for your whole family.

Who to take: *Aladdin* is great for the whole family, so bring your kids along for this fun family-friendly movie.

Cupid's Advice:

We're inspired by the strong friendship that grows between the Genie and Aladdin, and the unconditional love Jasmine has for Aladdin without him being a prince. It can be hard to do what is right when fame and riches are dangled in front of you, and good friends and people who love you can help you when you're struggling with deciding between doing what's right and what's easy. Cupid has some advice on maintaining a strong friendship or relationship when you are tempted by monetary rewards and fame:

1. Money and fame are fleeting: Money and fame may come and go. The people who care about you and have stood by you throughout life's obstacles are more important than something that can be so easily lost. Remember to choose the people who love you before you choose something that could cost you that important relationship, even if it means money and fame. They've earned your support just as they've supported you.

Related Link: [Movie Review: After](#)

2. Make time for each other: Life can be crazy, and if you add in things like money and fame it can become more hectic than you'd ever imagined. It can be easy to leave your partner or friends behind if you come into fame and money without realizing you're doing it. Avoid making your friends and partner feel forgotten by making time to spend together, even if it means carving out time in your calendar that no meetings or work can ever be scheduled to ensure you make time for your loved ones, do it because that quality time is important.

Related Link: [Movie Review: Isn't It Romantic](#)

3. Thank them for their support: They were there before you made it big, and they loved you before you had fame or money. They supported you so make sure they know you appreciated them being there by saying thank you and by being there for them when they need someone in their corner.
