**2. Get out of the house:** After an appropriate amount of time your partner will need to stop sulking. **3. Be there to talk to, but understand when they need space:** Always remind your significant other you're willing to listen to their problems, but don't push them into telling you anything. Some days they will need their private time, so take note of that and do not get offended. When they have these days, offer to make them soup or rent them a movie. Emphasizing that you're there when they need you is a big comfort.
