When do you risk yourself for love?

Cupid's Advice:

Putting yourself in a position of risking yourself for love is challenging. You will inevitably come into a situation where you want to reach out of your comfort zone for your partner. The problem here is when you should do this. Cupid has some advice:

1. Passion: Our passions in life need to be followed! Some people have not followed their own passion because it frightens them. Get out of your comfort zone ladies and gentlemen. If you love your passion, if you think about it

every single moment of your life, take a step. Even if you may get hurt or there is a possible danger in the future, pursue it! It is simple, if you love something, take that risk. Go for gold.

2. Love: Loving another person is absolutely terrifying. As much as people say it is easy as one, two three; it isn't always. With the beginning of a relationship, or even in any situation, you will have to take a jump. Yes it is scary, and you may not want to do it..but you must! If you could see your relationship strengthening with love, or blooming into love-risk it! Don't be worried of getting hurt, or losing the person you've been with, a risk is always healthy for people.

3. Danger: A little danger here in there is not only exhilarating, but necessary! Every once in a blue moon, put yourself in something you wouldn't normally. Go out on that blind date your mom set up. Move in with the guy you've been seeing. Have a one night stand with the mysterious, dark man staring at you in the bar. Love is everywhere and you need to risk yourself a little to find it.
